Dear Mr Allinson,

HIGHWAYS ACT 1980; S. 119.
Application for permanent diversion of part of Public Footpath NK3 in Luddington, Northamptonshire

We have received an application to permanently part of Public Footpath NK3 in the parish of Hemington, Luddington & Thurning (in the vicinity of National Grid Reference (NGR) TL 0944 8200).

The reason for the proposed diversion is to move that part of the Footpath for which the application relates off the current line to allow the applicant to fulfil Planning Permission for a new reservoir that would obstruct the path if not diverted.

No works or breaking of ground should be needed to bring this diversion into effect. Please see the accompanying plan for a visual representation.

If you have any comments or representations regarding this application, please let me have them by email (daniel.wilde@northnorthants.gov.uk) at your earliest convenience or by **25/03/2024** at the very latest.

Kind regards,

Daniel Wilde
